**INTERDEPARTMENTAL COMMUNICATION**

**To:** Don P. Johnson, Town Manager

**Date:** June 14, 2005

**From:** Engineering Department *cy*

**Subject:** Keyspan Energy Delivery, Carlisle Road & Blueberry Path

---

We have reviewed the petition from Keyspan Energy Delivery to install a 4-inch gas main in Carlisle Road from Marshall Path to Canterbury Hill Road (Robbins Mill Estates Subdivision) and a 2-inch gas main in Blueberry Path from the end of the existing gas main next to the driveway for house #5 to Canterbury Hill Road. We have the following comments concerning the petition:

1. We recommend that Keyspan extend the gas main underneath the existing sidewalk along Blueberry Path to avoid working within the road pavement. Once the gas main is installed, Keyspan can reconstruct the sidewalk from the sideline of the driveway for house #5 to the existing hydrant at the end of the road. Attached herewith is a typical detail for a sidewalk and a grass strip.
2. A Permit to Construct within a Public Way will need to be obtained from this department prior to starting work in Carlisle Road and the Town owned section of Blueberry Path.
3. I also enclosed a copy of the as-built plan for the Town owned portion of Blueberry Path showing the locations of existing monumentation such as the stone bounds and the drill holes in the stone wall. These survey markers need to be marked in the field and protected during construction. If these survey markers are disturbed during the installation of the new gas main, Keyspan should be required to hire a registered land surveyor to reset and certify the new locations of the stone bound and/or drill holes.
4. The final pavement patch in Carlisle Road should be done by the "grind and inlay method" used by Keyspan on Piper Road and Hayward Road.

We do not foresee any problems with granting this petition. If you have any questions, or need additional information, please let us know.
